

Manufacturers of Galley Equipment

ALUMINOX

since 1929

Our company

A history that begins from 1929…

Aluminox history begins in 1929, when a small company was founded to produce, among other things, light equipment for commercial kitchens. Nowadays, after a long presence in the market, Aluminox has acquired long-term experience in the professional galley.

Aluminox is able to assist you in all the phases of your project, from initial concept and budget up to the installation and the after sales service. Over the last years, we have formed partnerships to be able turnkey deliveries whether in newbuildings or in conversions.

Cooperating with Alumionx results to:

- Flexible production that can be customized according to your specific project.
- Direct contact with the person in charge of your project/s. Your requests is our top priority and we make sure that we meet your demands.
- A partner you can count on to help you with all the challenges you might face during the total life cycle of your asset.

Reference List

ALUMINOX clientele is covering different types of vessels from Mega Yachts to Ferries until Floating Platforms and Cargos.

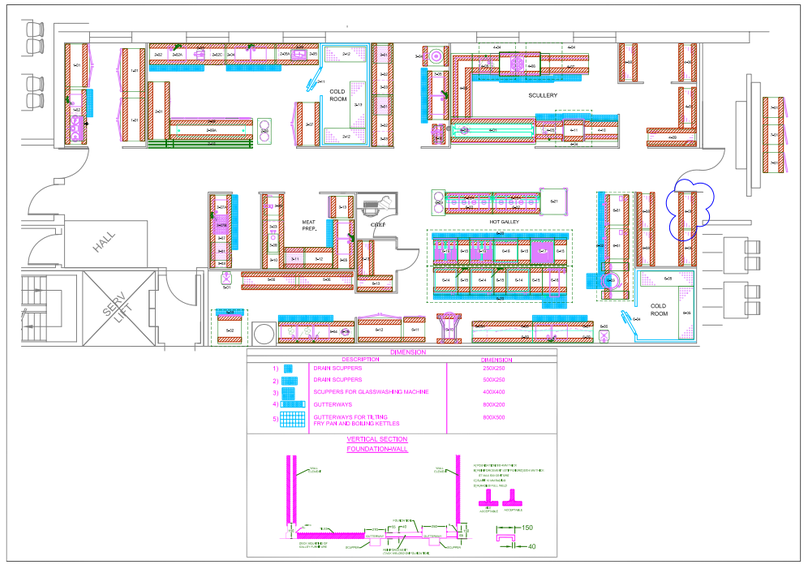
Main Galley USPH Project

In new buildings or in conversions, from initial concept to turnkey and after sales service, You can count on us.

Aluminox offers the complete project concept.

- That means that we can participate with the owner or the yard at any stage a project.
- We can be with you at the very early stages when you prepare your budget or when you make the layout arrangement drawings.
- When the designs are prepared from your side we are flexible enough to adjust our proposals and products according to your design and of course we can install and start up the equipment we offer you.
- Finally, our customer service stays with you all the way ensuring that you have the best possible after sales service.
- We have specialized people in key areas of the company and in this way we can provide quick and efficient service.
- In a project we produce 60%-80% of the equipment on board. In this way we control both the quality and the aesthetics and the finished result shows a unified design.
- We can provide you with turn-key delivery together with our network of cooperators and adopt in the way you prefer the job to be done (for example through a module based system). We can comply with all regulations, Norsok, USPH as all of our products fulfill the highest quality requirements.



Our products for complete project deliveries

Aluminox can offer a variety of products.

All of our appliances have the CE approval so that they comply with the European Community quality standards, and our production procedure is ISO 9001 certified.

After a long-term experience, we have developed our production to include constructions of very strict regulations such as the United States' Public Health Specifications (U.S.P.H.).

Our range of products includes the following categories:

- **Preparation Equipment**
- **Cooking Equipment**
- **Food Serving Equipment**
- **Dish Washing Equipment**
- **Bar & Pantry Equipment**
- **Refrigeration & Laundry Equipment**
- **Self Service & Stainless Steel Furniture**

- **High quality-long durability**
- **Distinctive design**
- **Superior Performance**

Seamless Cooking Blocks

Responding to the needs of the market, Aluminox has developed its seamless group line from the requirements of the market and from real projects. This line is ideal in galleys where performance and high standards are required. We bring you two lines:

Line U designed to match the USPH standards, or the standards that you are setting in your project

Line T designed to tempt you upgrade your conventional galley in to the new design philosophy of seamless groups.

Aluminox Standard Hot Line

Electric Ranges 70 and 90 line with square or rectangular plates

Electric Tilting Pans from 60 to 130 liters

Electric Fryers 70 and 90 line. Also available with SOLAS specification

Electric Griddles 70 and 90 line smooth or ribbed surface or half and half

Electric High Pressure Tilting Kettles from 90 to 150 liters

Electric Boiling Pans from 60 to 150 liters

Electric ovens with 1 to 3 floors with hot cupboard or s/s base.

Galley hoods

Certified for USPH or standard marine applications

Our product range includes:

- **Condesnation Hoods**
- **Grease Hoods**
- **Air Recirculation Hoods**
- **UVC/Ozone Self Washing Hoods**
- **Plasma Air Purification Systems**

Our production is designed to give you tailor made hoods.

- **The design of the hood is adapted to your project**
- **The exhaust connections are made according to the ship's ventilation exhaust system**
- **The exhaust capacity is calculated according to the cooking equipment below**
- **We provide you with the engineering support from the initial design up to the installation of the hoods.**

Our Cooperators

MKN

Combi Steamers

Hobart

Dishwashers

Aluminox range of products in terms of complete project delivery includes also the following categories:

- **Small Preparation Equipment (Slicers, meat mincers, cutters, mixers etc)**
- **Bar & Pantry Equipment (Coffee machines, blenders, toasters, ice cube machines etc)**
- **Laundry Equipment (Washers, Dryers, Ironers etc)**
